THE ACTIVE LEARNING TRUST STATEMENT OF INTENT

The Active Learning Trust recognises and accepts its responsibility for providing a safe and healthy environment for the staff employed in the headquarters and academies, for the students attending the academies and for visitors and contractors who come on to the premises.

The Active Learning Trust will take reasonable steps to fulfil these responsibilities within the framework of the *Health and Safety at Work etc. Act 1974* and the *Management of Health and Safety at Work Regulations 1999* as well as those other regulations, approved codes of practice, guidance, etc. made under this legislation. The Active Learning Trust will ensure that appropriate policies are in place and kept up to date.

To this end, The Active Learning Trust will procure the services of appropriate health and safety consultants to advise the staff at its headquarters and its academies on all related matters and to provide its headquarters and its academies with up to date information in relation to its health and safety responsibilities. Any revision of this policy will be after appropriate consultation and negotiation through Karen Jarvis.

The responsibility for the implementation of The Active Learning Trust Health and Safety Policy and sub-procedures at individual academy level rests with the Local Governing Body and the Principal.

Each and every member of staff of The Active Learning Trust and its academies must recognise that, under the *Health and Safety at Work etc. Act 1974*, they have a personal responsibility for their own safety as well as for the safety of anyone who may be affected by their acts or omissions at work. They also have to co-operate, as far as is necessary, with their employer in fulfilling its duties under the *Health and Safety at Work etc. Act 1974* and supporting legislation as well as under The Active Learning Trust's Health and Safety Policy.

The organisation and arrangements through which The Active Learning Trust, governors and staff aim to fulfil the requirements are set out in the following policy and its appendices.

The Active Learning Trust will ensure that sufficient resources are allocated and ensure, as far as is reasonably practicable, that employees, students, visitors and contractors are kept healthy and safe.

Sub-policies & procedures

Sub-policies & procedures form the rest of the **Chantry Academy** Health and Safety Policy. These are either provided by The Active Learning Trust, or documents produced locally to reflect individual schools. A list of these is attached. **It should be noted that some of the documents listed are Trust-wide and should NOT be adapted.**

It is a requirement that all members of staff read the **Chantry Academy Health and Safety Policy and sign that they have done so. They should also be made aware of where they can access the sub-policies & procedures that underpin the Health & Safety policy.**

- The **Principal** has overall responsibility for the internal management of the academy policies and procedures and reporting to the Local Governing Body;
- **HSM** has the responsibility for the day to day management, co-ordination and implementation of the policy and for liaising with contractors and reporting to the Principal;
- **Heads of areas/departments** have responsibility for health and safety within their areas and for reporting to the HSM;

Members of staff must be competent to carry out appropriate risk assessments. The HSM is responsible for ensuring that all staff who complete risk assessments are suitably qualified and competent.

Chantry Academy will determine its own risk assessment pro forma, which must be used by all staff or other designated persons. Completed assessments should be sent to the HSM and retained on the health and safety management system and made accessible to all relevant staff. Relevant staff will be provided with training on the health and safety management system.

Risk assessments must be reviewed regularly and at least once a year with a view to ensuring that the control measures have been effective. If any incident arises, the risk assessment will be revisited immediately and any improvements needed will be made.

The HSM will ensure that suitable and sufficient risk assessments are carried out and determine which can be done at academy level and which by any other outside contractors. The HSM has the discretion to seek advice from The Active Learning Trust on appropriate delegation and will report the reasons and response to the Principal.

The government's current advice is that written risk assessments are not required for every activity. Staff should assume they only need to write down a risk assessment in exceptional circumstances, however The Active Learning Trust devolved the decision for whether written Risk Assessments are necessary to the Principal. Where the Principal (through the HSM) determines that a risk assessment must be carried out, the HSM will ensure that any significant findings of the assessment are written and recorded. A verdict of: 'Risk assessed. No significant finding' is acceptable.

The government advises that some activities, especially those happening away from the academy, can involve higher levels of risk. If these are annual or infrequent activities, a review of an existing assessment may be all that is needed. If it is a new activity, a specific assessment of significant risks must be carried out. The Principal should ensure that the person assigned with the assessment task understands the risks and is familiar with the activity that is planned. Where a risk assessment is carried out the Principal must ensure that the significant findings of the assessment are recorded. See DfE guidance [Health and Safety: Advice on Legal Duties and Powers for Local Authorities, School Leaders, School Staff and Governing Bodies.](#)

9. Security

Chantry Academy will take note of The Active Learning Trust Security and Safety of Premises Policy and adapt it to suit the particular situation of the academy.

The security arrangements will cover as relevant:

- The site;
- The buildings;
- Notices;
- Control of visitors and contractors to the academy;
- Locks and keys;
- Out-of-bounds areas;
- Dealing with trespassers;
- Security of staff and student property;
- Vehicles and cycles;
- Movement around the site and buildings;
- Transport and pedestrians arriving at the academy in the morning and leaving in the afternoon; and
- Responsibilities for security aspects.

10. Health and Safety Management Arrangements

Chantry Academy will use the academy's health and safety management system (Handsam) for recording health and safety management. All relevant staff will be trained in its use.

The HSM will be responsible for the health and safety management system and will make regular reports to the Principal on the progress of the annual cycle of health and safety management.

Staff with health and safety responsibilities will be responsible for completing tasks assigned to them and recording completion in the health and safety management records in the manner laid down by the academy.

The academy will review individual responsibilities and ensure that there is appropriate training, compliance and documentation on an ongoing basis.

The Active Learning Trust will make arrangements to review the implementation of the management system from time to time to ensure that the system is used to ensure that **Chantry Academy** complies with law and regulations.

The academy Local Governing Body will receive termly reports on the implementation of its health and safety policies and procedures and an annual status review.

11. Training

Chantry Academy will provide opportunities for all employees to have access to the information, instruction, supervision and training required to enable them to discharge their responsibilities safely and work in a safe environment.

All employees, volunteers, peripatetic staff etc., whether permanent or temporary, will undergo **induction training** which will include the following health and safety matters:

- Emergency arrangements;
- Fire drills;
- First aid arrangements;
- Accident reporting;
- Good housekeeping;
- Codes of safe practice and guidance;
- Health and safety handbook and academy arrangements;
- Specific hazards/responsibilities associated with work activity; and
- Special needs of students including students with disabilities.

Further training needs will be considered when employees transfer or take on new responsibilities, when there is a change in the work equipment or systems of work in use, or when there is a change in the special needs of the students.

The HSM will identify with relevant heads of department and staff the appropriate health and safety training needs.

The academy undertakes to provide extra training for staff where a need is identified.

Staff who feel that they have a need for health and safety training of any kind should notify the HSM in writing.

The HSM will maintain records of individual employee training to ensure that training is up to date and appropriate for the duties undertaken. The recording of which will be shown on the health and safety management system. Where certificates of competence are required for potentially hazardous activities (e.g. woodworking machinery, swimming etc.), heads of department are responsible for:

- Checking the validity of certificates;
- Arranging refresher training when necessary; and
- Keeping the HSM informed.

Responsibility for facilitating attendance and funding of training will be allocated by the Principal.

12. Staff Involvement in the Management of Health and Safety

All staff will have access to a copy of The Active Learning Trust statement of intent and the **Chantry Academy** Health and Safety Policy and sub-policies and will sign the Academy's Health & Safety training record to indicate that they have read and understood this policy and the sub-policies and their responsibilities. **Chantry Academy** recognises that time must be provided for this to be undertaken.

All relevant staff will be trained to use the academy's health and safety management system (Handsam).

The academy management undertakes to keep staff informed of any changes to the policy and procedures through the Health and Safety Committee, minutes, communications with line managers, staff bulletins, staff meetings and briefings and e-mail messages.

All staff will have the opportunity for direct involvement in managing health and safety through departmental arrangements and through representatives on the Health and Safety Committee.

13. Measuring Performance

Chantry Academy will use an appropriate system to support relevant staff in carrying out their responsibilities for health, safety and security in their areas.

The HSM will ensure that the following are carried out as appropriate, using the academy's management system for logging purposes:

- Regular documented audits;
- Site inspections;
- Review of risk assessments and the subsequent control measures;
- Surveys by the Health and Safety Committee (if in place);
- Attendance at health and safety meetings;
- Information coming out of department meetings and how it is dealt with;
- Results of any external reviews/investigations;
- Regular review of accidents/incidents/near misses and use of the information and experience gained from the review;
- A system of reviewing and developing improvement plans as identified; and
- Sharing experiences, findings and good practice inside the academy.

14. Status Review

Chantry Academy will, at the end of each academic year (or appropriate period), draw up a status report on each safety management area covered by the academy's review.

The review will draw off the information on the management system and will comprise:

- A statement of the number of uncompleted tasks on 31st August (or any other date chosen by The Active Learning Trust).
- A review of the overall fulfilment of risk assessments and other health and safety tasks as recorded on the management system;
- A review of the overall decrease/increase in risks and reported incidents from the previous year;
- A review of the overall decrease/increase in accidents/incidents;
- Any other findings in the annual audit;
- Changes in the health and safety organisation, policy or structure;
- New processes and new technology introduced for health, safety and security;
- A reference to external influences: legislation, guidance, British Standards, auditors and reports; and
- Any proposals for improvements.

The Principal will ensure that copies of the status review will go to the Local Governing Body, The Active Learning Trust and appropriate staff and union representatives.

15. Equal Opportunities

In making, reviewing and implementing this policy the academy's Equal Opportunities Policies must be taken into account.

In particular the academy must ensure that reasonable adjustments are made to the premises and facilities to enable disabled staff, students, contractors, volunteers and visitors to use the academy's facilities and curriculum as far as is reasonably practicable. The disability accessibility plan must be kept under review and implemented as appropriate, in order to ensure safe access for disabled staff, students, contractors, volunteers and visitors.

16. Sub-policies, documents & procedures

The attached sub-policies, documents and procedures make up the overall **Chantry Academy** Health and Safety Policy to which each academy must have regard.

Each academy may decide to add additional procedures that are relevant to its situation and needs. If additional procedures are added, the academy Local Governing Body must ensure that draft copies are submitted to The Active Learning Trust for consultation and approval.

Chantry Academy's Local Governing Body will take into account any guidance from The Active Learning Trust and will incorporate any requirements set out by The Active Learning Trust before implementing additional policies or procedures.

17. Monitoring and Review

The HSM is responsible for:

- Monitoring the implementation of the policy;
- The proper use of the academy's management system;
- The making of risk assessments;
- The state of training, and
- Reporting to the Principal.

The HSM will assist the Principal in compiling the annual status review.

The Principal is expected to show leadership in health and safety management.

The Principal will:

- Monitor the implementation of the policy;
- Ensure that the academy's procedures are fit for purpose;
- Ensure that the management system is being used to ensure compliance;
- Advise the Local Governing Body of changes in health and safety law, regulations and guidance;
- Keep the Local Governing Body up to date with any changes in the academy organisation that may require a fresh look at health and safety; and
- Present an annual status review to the Local Governing Body.

The Local Governing Body will:

- Receive termly reports on health and safety and security in the academy from the Principal and an annual status review;
- Report as directed to The Active Learning Trust on the working of the policy and procedures;
- Ensure that the academy maintains, monitors and reviews its Health and Safety Policy, procedures and organisational arrangements; and

The Health and Safety Manager of **Chantry Academy** will ensure that procedures are in place and are regularly monitored and will report to the Principal.

The Principal will report as required to the Local Governing Body and The Active Learning Trust on how well the arrangements are succeeding and will review the policy annually.

APPENDIX B: RISK ASSESSMENT TEMPLATE

Making risk assessments in the workplace is covered by the *Management of Health and Safety Regulations 1999*. There is no law about how risk assessments should be done or recorded, although the HSE has issued [guidance](#) on these.

Although some risks cannot be prevented, you should always look to eliminate a risk where it is possible. Controlling risks that cannot be prevented should be focused on doing what is “reasonably practicable”, with the aim to protect anyone likely to come into contact with the risk. No risk is averted by the amount of writing in a risk assessment. Be brief and to the point. For guidance on using the risk assessment, see table and explanations below.

ACTIVITIES: (What will you be doing and with whom?)				TO BE COMPLETED				
DATE OF RISK ASSESSMENT:				Date completed:	TO BE COMPLETED	Date to be reviewed: (Max timeframe 1 year)	TO BE COMPLETED

(Staff, students, visitors etc.)	Inherent Likelihood & Severity (See table at end of doc)	Inherent Risk Score (Likelihood X Severity)	Control Measures (How you will reduce the risks and whether they are already in place or not e.g. guards on machines already in place or need to wear PPE eye wear/gloves)	Are Control Measures in Place? Please rate the **Risk Severity** and the **Risk Likelihood** using the below table both before and after the Control Measures.

		Risk Likelihood				
Total Risk calculation table		1: Near impossible	2: Unlikely	3: Notable chance	4: Likely	5: Almost certain
Risk Severity	1: Insignificant	1	2	3	4	5
	2: Minor injuries	2	4	6	8	10
	3: Notable injuries	3	6	9	12	15
	4: Major injuries	4	8	12	16	20
	5: Fatal	5	10	15	20	25

Likelihood and severity form a ratio created by taking the number affixed to the relevant level of each in the white box – for example a “near impossible” risk likelihood and “minor injuries” risk severity would form a ratio of 1:2. These figures are then multiplied to form the inherent risk score, in this case 2. Repeat this process to ascertain your

Risk Rating Calculation

Total Risk = Remaining Risk Severity X Remaining Risk Likelihood

A **Total Risk** score of **1-9** should mean you are safe to undertake the activity as long as the required control measures are in place throughout.

A **Total Risk** score of **9-12** should mean you reconsider control measures, method or even necessity of activity before undertaking it.

A **Total Risk** score of **13-25** should mean you do not undertake the activity at all until you have completely reconsidered how to deliver it safely.

Please Also Note

All risk assessments should be approved and signed by SMT/SLT/line management as appropriate.

All accidents and incidents must be recorded in line with the school/academy’s policy.

Also report near misses – not just accidents or incidents.
